Ron/Wayne

Wanted to forward this to you in case you were unaware of it. EPA received a FOIA from the White coat Waste project that was forwarded to David Diaz-Sanchez and myself yesterday (will forward to you). It requested records from TAD and EPHD (but not ISTD) related to animal use.

Mike has a good point about having ARPO respond to the FOIA as they may have more relevant info or have it more easily at their fingertips.

Tim,

The link is below. Also, why isn't ARPO coordinating the animal use? They would have a better idea of the numbers.

It looks like several recent papers/abstracts from our branch have been recently used for a story by a right-wing news agency. Just a heads up to be a bit extra careful next week at SOT.
